Trading Strategy 100: Trade To Win: Stop Gambling In the Market And Master The Art of Risk Management When Trading And Investing (Stock Trading Stock Investing) Steve Ryan

Trading Strategy 101 & 102 are your most efficient methods to be consistently profitable trading and investing without having to deal with complicated financial jargon.

Why do you think most people lost their hard-earned money when investing and trading?

Investing and trading is hard. No argument about that.

However, most people make it complicated and in turn, successfully cause the myth that only insiders can make money in the market.

Totally untrue.

WHY Trading Strategy?

Everyone --- who is willing to put the time and efforts --- to learn the correct techniques will be able to be a consistently profitable trader / investor in the market.

And the success is irrelevant to what kind of market the investor is trading....any financial market --- from stocks, bonds, futures, options, commodities, and even Forex trading. --- will do.

How so? Aren't they all different instruments?

They are different, but human nature is always the same. And that is the reason understanding the basic of stock chart analysis is critical for every trader – investor out there.

Why? Because human emotions --- especially greed and fear --- are all mapped out on the stock charts.

Trading Strategy series strive to educate traders and investors to execute without compromise. The name of the game is Risk to Reward Ratio.

HOW It Benefits You?

This book will allow us to review some of the basic stock chart reading skills and I can guarantee you,

they will add values to your investing or trading skill.

Now, making money consistently in the market, however, does not solely depend on the skills outlined in any of the *Charts Don't Lie* books.

And even if people have finished reading and understanding *7 Secret Steps Of Profitable Trading System* and *10 Enigmatic Price Actions In Trading*, the chance of most people will fail is still very big.

Don't get me wrong. All those techniques are important.

Yet, without the prudent attitude towards risk management, as well as the ability to execute orders promptly, a trader or investor will sabotage himself from achieving the success he desires so much.

WHAT You Will Learn

- 1) How you can make more money by applying right attitudes towards personal finance. This includes the disciplines to follow certain trading rules and risk management.
- 2) **How you can feel good knowing that discipline put you in the investment opportunities with optimal potential profits.**
- 3) How you can make money consistently in the market by STOP treating trading as a hobby and start looking at his/her trading decisions as business decisions.
- 4) **This book is free, so if you are looking to learn trading strategies in depth, check out *Trading Strategy 101-102!***
