Congress and the Politics of National Security

In an increasingly complex and unpredictable world, a growing number of observers and practitioners have called for a reexamination of our national security system. How have developments in Congress over the past few decades, such as heightened partisanship, message politics, party-committee relationships, and bicameral relations, affected topical security issues? This volume examines variation in the ways Congress has engaged federal agencies overseeing our nation's national security as well as various domestic political determinants of security policy.
