Academic Research on the Internet: Options for Scholars & Libraries William Miller, Helen Laurence
Find what you're looking for with the best Internet resources for academic research in the humanities, sciences, and social sciences! Which academic resource deserves more of your budget: printed books and journals or softly glowing terminals? The answer differs depending on the subject area, the availability and reliability of Internet information in that field, and the comparative value of Internet research and traditional print media. *Academic Research on the Internet: Options for Scholars and Libraries* gives you the information you need to make those choices. This comprehensive book examines the usability of the Internet as a scholarly research and reference tool. Each chapter provides a snapshot of Internet information access and usability in a specific subject area, comparing it to traditional print media. In addition, each chapter includes a selected webliography of key resources—a time-saving tool for librarians on the reference desk. Experts in specific subject areas provide up-to-the-minute assessments of the usefulness of the Internet for research in their fields, including:

- Arts and Architecture
