Detection of Intrusions and Malware, and Vulnerability Assessment: Second International Conference, DIMVA 2005, Vienna, Austria, July 7-8, 2005, Proceedings (Lecture Notes in Computer Science)

On behalf of the Program Committee, it is our pleasure to present to you the proceedings of the 2nd GI SIG SIDAR Conference on Detection of Intrusions & Malware, and Vulnerability Assessment (DIMVA). DIMVA is organized by the Special Interest Group Security & Intrusion Detection and Response (SIDAR) of the German Informatics Society (GI) as an annual conference that brings together experts from throughout the world to discuss the state of the art in the areas of intrusion detection, detection of malware, and assessment of vulnerabilities. The DIMVA 2005 Program Committee received 51 submissions from 18 countries. This represents an increase of approximately 25% compared with the number of submissions last year. All submissions were carefully reviewed by at least three Program Committee members or external experts according to the criteria of scientific novelty, importance to the field, and technical quality. The final selection took place at a meeting held on March 18, 2005, in Zurich, Switzerland. Fourteen full papers were selected for presentation and publication in the conference proceedings. In addition, three papers were selected for presentation in the industry track of the conference. The program featured both theoretical and practical research results, which were grouped into six sessions. Philip Attfield from the Northwest Security Institute gave the opening keynote speech. The slides presented by the authors are available on the DIMVA 2005 Web site at <http://www.dimva.org/dimva2005>. We sincerely thank all those who submitted papers as well as the Program Committee members and the external reviewers for their valuable contributions.

From reader reviews:

Stephanie Rodriguez:

This book untitled Detection of Intrusions and Malware, and Vulnerability Assessment: Second International Conference, DIMVA 2005, Vienna, Austria, July 7-8, 2005, Proceedings (Lecture Notes in Computer Science) to be one of several books in which best seller in this year, honestly, that is because when you read this book you can get a lot of benefit into it. You will easily to buy this book in the book retail outlet or you can order it through online. The publisher of this book sells the e-book too. It makes you more easily to read this book, because you can read this book in your Mobile phone. So there is no reason for you to past this book from your list.

Donna Lacher:

Often the book Detection of Intrusions and Malware, and Vulnerability Assessment: Second International Conference, DIMVA 2005, Vienna, Austria, July 7-8, 2005, Proceedings (Lecture Notes in Computer Science) will bring you to definitely the new experience of reading any book. The author style to elucidate the idea is very unique. In case you try to find new book you just read, this book very suitable to you. The book Detection of Intrusions and Malware, and Vulnerability Assessment: Second International Conference, DIMVA 2005, Vienna, Austria, July 7-8, 2005, Proceedings (Lecture Notes in Computer Science) is much recommended to you to learn. You can also get the e-book from the official web site, so you can more readily to read the book.

Irene Carpenter:

A lot of people always spent their very own free time to vacation as well as go to the outside with them household or their friend. Were you aware? Many a lot of people spent that they free time just watching TV, or perhaps playing video games all day long. In order to try to find a new activity here is look different you can read any book. It is really fun in your case. If you enjoy the book which you read you can spent the entire day to reading a e-book. The book Detection of Intrusions and Malware, and Vulnerability Assessment: Second International Conference, DIMVA 2005, Vienna, Austria, July 7-8, 2005, Proceedings (Lecture Notes in Computer Science) it is quite good to read. There are a lot of people who recommended this book. These folks were enjoying reading this book. If you did not have enough space to create this book you can buy the particular e-book. You can m0ore simply to read this book through your smart phone. The price is not too costly but this book has high quality.

Hazel Mercado:

Do you have something that you enjoy such as book? The book lovers usually prefer to select book like comic, quick story and the biggest you are novel. Now, why not attempting Detection of Intrusions and Malware, and Vulnerability Assessment: Second International Conference, DIMVA 2005, Vienna, Austria,

July 7-8, 2005, Proceedings (Lecture Notes in Computer Science) that give your enjoyment preference will be satisfied by means of reading this book. Reading addiction all over the world can be said as the method for people to know world much better than how they react toward the world. It can't be stated constantly that reading habit only for the geeky man or woman but for all of you who wants to possibly be success person. So , for all of you who want to start looking at as your good habit, you can pick Detection of Intrusions and Malware, and Vulnerability Assessment: Second International Conference, DIMVA 2005, Vienna, Austria, July 7-8, 2005, Proceedings (Lecture Notes in Computer Science) become your own personal starter.
