## **Virtual Instrumentation Using LabVIEW** Jovitha Jerome

This book provides a practical and accessible understanding of the fundamental principles of virtual instrumentation. It explains how to acquire, analyze and present data using LabVIEW (Laboratory Virtual Instrument Engineering Workbench) as the application development environment.

The book introduces the students to the graphical system design model and its different phases of functionality such as design, prototyping and deployment. It explains the basic concepts of graphical programming and highlights the features and techniques used in LabVIEW to create Virtual Instruments (VIs). Using the technique of modular programming, the book teaches how to make a VI as a subVI. Arrays, clusters, structures and strings in LabVIEW are covered in detail. The book also includes coverage of emerging graphical system design technologies for realworld applications. In addition, extensive discussions on data acquisition, image acquisition, motion control and LabVIEW tools are presented.

This book is designed for undergraduate and postgraduate students of instrumentation and control engineering, electronics and instrumentation engineering, electrical and electronics engineering, electronics and communication engineering, and computer science and engineering. It will be also useful to engineering students of other disciplines where courses in virtual instrumentation are offered.

THE BOOK INCLUDES A COMPANION DVD  
WHICH CONTAINS:

- 30-day Evaluation Software of LabVIEW
- Demonstration of projects accomplished by engineering students using LabVIEW
- LabVIEW PowerPoint presentations
- Reference material on Virtual Instrumentation and LabVIEW

### From reader reviews:

#### **Miguel Willis:**

Do you considered one of people who can't read satisfying if the sentence chained inside straightway, hold on guys this aren't like that. This Virtual Instrumentation Using LabVIEW book is readable by you who hate the perfect word style. You will find the data here are arrange for enjoyable reading through experience without leaving possibly decrease the knowledge that want to supply to you. The writer connected with Virtual Instrumentation Using LabVIEW content conveys the idea easily to understand by many individuals. The printed and e-book are not different in the information but it just different in the form of it. So , do you still thinking Virtual Instrumentation Using LabVIEW is not loveable to be your top collection reading book?

#### **Mathew Jones:**

Spent a free time to be fun activity to accomplish! A lot of people spent their free time with their family, or their particular friends. Usually they performing activity like watching television, likely to beach, or picnic inside the park. They actually doing same every week. Do you feel it? Will you something different to fill your personal free time/ holiday? Could possibly be reading a book could be option to fill your totally free time/ holiday. The first thing you ask may be what kinds of book that you should read. If you want to test look for book, may be the reserve untitled Virtual Instrumentation Using LabVIEW can be great book to read. May be it is usually best activity to you.

#### **Judith Ellis:**

Virtual Instrumentation Using LabVIEW can be one of your beginning books that are good idea. Most of us recommend that straight away because this book has good vocabulary that could increase your knowledge in terminology, easy to understand, bit entertaining but nevertheless delivering the information. The article writer giving his/her effort that will put every word into enjoyment arrangement in writing Virtual Instrumentation Using LabVIEW nevertheless doesn't forget the main position, giving the reader the hottest as well as based confirm resource info that maybe you can be certainly one of it. This great information can easily drawn you into fresh stage of crucial considering.

#### **Jasper Parsons:**

This Virtual Instrumentation Using LabVIEW is great book for you because the content that is certainly full of information for you who else always deal with world and have to make decision every minute. This particular book reveal it info accurately using great plan word or we can state no rambling sentences inside it. So if you are read this hurriedly you can have whole info in it. Doesn't mean it only provides straight forward sentences but difficult core information with attractive delivering sentences. Having Virtual Instrumentation Using LabVIEW in your hand like finding the world in your arm, info in it is not ridiculous just one. We can say that no publication that offer you world with ten or fifteen minute right but this reserve already do that. So , this is good reading book. Hi Mr. and Mrs. hectic do you still doubt which?
