## **Weird Dinosaurs** Merlin J. Bones

This book is about dinosaurs (and, to some extent, paleontologists, the scientists who study fossils and the history of life). However, this book isn't about normal dinosaurs. I mean, there are tons of books out there about, say, Tyrannosaurus rex, because that's one of everybody's favorite dinosaurs. Heck, T. rex is one of my favorite dinosaurs (and not just because I had one as a neighbor when I was growing up). In fact, a Tyrannosaurus - of sorts - sneaks into this book ... just not a normal one.

No, this book is about Weird Dinosaurs, like the guy on the cover. In here, you'll find:

A Tyrannosaurus - with feathers?

The biggest dinosaur (well, almost)

The dinosaur with four wings

The Renaissance dinosaur

The dinosaur with two brains

Movie star dinosaurs

And much more!

This is the perfect book for the young scientist in your household. It not only tells the stories of many Weird Dinosaurs, it also delves into paleontology, geology, climatology, and the history of the Earth itself!
