# Handbook of Research Methods and Applications in Economic Geography (Handbooks of Research Methods and Applications series) (Elgar Original reference)

Charlie Karlsson, Martin Andersson, Therese Norman

**Handbook of Research Methods and Applications in Economic Geography (Handbooks of Research Methods and Applications series) (Elgar Original reference)** Charlie Karlsson, Martin Andersson, Therese Norman

This *Handbook* provides an overview and assessment of the state-of-the-art research methods, approaches and applications central to economic geography.

Understanding spatial economic outcomes and the forces and mechanisms that influence the geography of economic growth is of utmost importance and demands substantial theoretical and empirical research in economic geography, spatial economics and regional science. Such research is critically dependent upon good and reliable empirical data, and it is here that this *Handbook* contributes, providing a broad overview of up-to-date research methods and approaches. The chapters are written by distinguished researchers from a variety of scholarly traditions and with a background in different academic disciplines including economics, economic human and cultural geography, and economic history.

Researchers and academics in economics and economic geography will find this a fundamental reference point and will benefit from the comprehensive assessment of research methods and approaches in the field. Practitioners and policy-makers will also find the practical applications to be of utmost value.
