## **Mixed-Effects Models in S and S-PLUS (Statistics and Computing)** José Pinheiro, Douglas Bates

An overview of the theory and application of linear and nonlinear mixed-effects models in the analysis of grouped data, such as longitudinal data, repeated measures, and multilevel data. The authors present a unified model-building strategy for both models and apply this to the analysis of over 20 real datasets from a wide variety of areas, including pharmacokinetics, agriculture, and manufacturing. Much emphasis is placed on the use of graphical displays at the various phases of the model-building process, starting with exploratory plots of the data and concluding with diagnostic plots to assess the adequacy of a fitted model. The NLME library for analyzing mixed-effects models in S and S-PLUS, developed by the authors, provides the underlying software for implementing the methods presented. This balanced mix of real data examples, modeling software, and theory makes the book a useful reference for practitioners who use, or intend to use, mixed-effects models in their data analyses. It can also be used as a text for a one-semester graduate-level applied course.

### **From reader reviews:**

#### **Carol Welch:**

The book *Mixed-Effects Models in S and S-PLUS (Statistics and Computing)* gives you the sense of being enjoy for your spare time. You can use to make your capable a lot more increase. Book can to get your best friend when you getting strain or having big problem with your subject. If you can make looking at a book *Mixed-Effects Models in S and S-PLUS (Statistics and Computing)* being your habit, you can get far more advantages, like add your personal capable, increase your knowledge about a few or all subjects. You could know everything if you like open and read a book *Mixed-Effects Models in S and S-PLUS (Statistics and Computing)*. Kinds of book are several. It means that, science reserve or encyclopedia or other people. So , how do you think about this reserve?

#### **Jeffrey Blough:**

Reading a guide tends to be new life style with this era globalization. With reading through you can get a lot of information that will give you benefit in your life. Having book everyone in this world can share their idea. Textbooks can also inspire a lot of people. Lots of author can inspire their own reader with their story or their experience. Not only the storyline that share in the ebooks. But also they write about the information about something that you need example of this. How to get the good score toefl, or how to teach your kids, there are many kinds of book that exist now. The authors nowadays always try to improve their skill in writing, they also doing some research before they write for their book. One of them is this *Mixed-Effects Models in S and S-PLUS (Statistics and Computing)*.

#### **Tammy Paradis:**

People live in this new time of lifestyle always aim to and must have the free time or they will get lots of stress from both lifestyle and work. So , once we ask do people have time, we will say absolutely of course. People is human not a robot. Then we inquire again, what kind of activity do you possess when the spare time coming to a person of course your answer will probably unlimited right. Then do you try this one, reading textbooks. It can be your alternative throughout spending your spare time, the particular book you have read is *Mixed-Effects Models in S and S-PLUS (Statistics and Computing)*.

#### **Debbie Yarborough:**

Your reading 6th sense will not betray you actually, why because this *Mixed-Effects Models in S and S-PLUS (Statistics and Computing)* book written by well-known writer who really knows well how to make book which can be understand by anyone who all read the book. Written within good manner for you, dripping every ideas and producing skill only for eliminate your current hunger then you still question *Mixed-Effects Models in S and S-PLUS (Statistics and Computing)* as good book not simply by the cover but also from the content. This is one reserve that can break don't determine book by its handle, so do you still needing another sixth sense to pick this kind of!? Oh come on your reading sixth sense already said so

why you have to listening to an additional sixth sense.
