The Girl on the Train: A Detailed Summary About The Novel Of Paula Hawkins!

The Girl on the Train is a book written by Paula Hawkins. It's a psychological thriller with a fair bit of sadness in it. It's storyline is about couple of women which live completely different lives, until one day, their lives intersect in a strange manner. It is a tight thriller with some realistic nasty characterisation and an intricate interweaving of narrative voices.

As mentioned above, the book's storyline is about couple of women whose lives intersect. The main common thing is that each and every of that woman carries a certain baggage in their lives, but each of them is different in it's own way.

The author shows real skill in switching between the characters voices and stories at just the right time to heat up the tension. The subtle revelations about each of the characters and how they relate to the current situation are brought to the reader with precision, and the author is good at making inconsequential details which suddenly have huge importance. Another good fact is that every major character in this book is absolutely terrible, and as a result, this book is a masterpiece in character study and development.

Building the drama is the key in this novel, and Hawkins did that pretty good, but as the novel comes to it's conclusion, it feels somehow less convincing.

All in all, The Girl on the Train is nicely crafted piece of modern suburban noir. A definite must have for avid psychological thriller/life drama collectors.
