Turmoil in the Middle East : Imperialism, War, and Political Instability Berch Berberoglu

Turmoil in the Middle East highlights the impact of imperialism, war, and political turmoil in the Middle East throughout the course of the twentieth-century--from the devastation of the First World War through the many crises and conflicts that have led to cycles of war, uprisings, coups, revolts, and revolutions. It focuses on the internal contradictions of Middle Eastern states driven by the dynamics of class conflict and class struggle in various realms of society and social relations. Berberoglu examines the political economy of long-embedded conflicts and crises in the Middle East, paying special attention to the role of powerful, external forces stemming from Western imperialism and led by Britain, France, and later the United States.
