Leading and managing change in schools is a complex topic. In this timely book the authors take the reader through a journey of how to lead and manage multidimensional change in order to create engaged learners, teachers, leaders and managers. They provide a readable and straightforward account of a major, high-profile innovation in one school and draw from it key lessons for leaders and managers of change in schools.

Managing Complex Change in School synthesizes a wealth of literature and research on managing change, and shows how the emerging field of complexity theory can inform the effective management of multidimensional change.

Arising from an in-depth, mixed methods evaluation of the key school, this book is practice-focused and is an invaluable companion for practitioners handling positive change in schools.
