**A History of Music in Western Culture (3rd Edition)** Mark Evan Bonds PhD

*A History of Music in Western Culture* 3/e is based on the premise that the best way to convey the history of Western music is to focus squarely on the music. Organized around a carefully selected repertory of works, this text integrates the requisite names, dates, and concepts around specific compositions. Once familiar with a representative body of music, students can better grasp the evolution of musical style and music's changing uses within the Western tradition. Even more importantly, they will have a sound basis from which to explore other musical works and repertories. This text builds its narrative around the core repertory represented in the *Anthology of Scores* and the corresponding sets of compact discs.
